Crossword Master

Crossword Master is designed to aid in teaching languages. Simple crosswords can be constructed by the teacher and printed out for use by students. Crosswords can be automatically constructed from a list of words, or words can be entered into the crossword grid to manually construct a crossword. Crossword Master will then make a word list and allow the teacher to write clues, if clues are desired. You can adjust the number of rows and columns you want in the crossword grid. If you do not know what size your final crossword will be, enter values larger than you will want. More features and tools. Crosswords may be have words added in two ways - by changing letters in the crossword grid display, or by changing words displayed in the list of words. Crosswords can be printed in a variety of formats, to suit your teaching requirements. You can print a blank crossword grid with numbers and clues for students to fill in; you can print a grid with either the across words or the down words already entered; or you can print a complete solution with all words already entered in the grid. The clues or words may also be printed out separately. All in all, Crossword Master is a neat software solution designed to help improve your language by creating and solving crossword puzzles using lots of neat features and tools. Crossword Master Download Link: Download Link (Win): Download Link (Mac): Learn the 100 most important words of English.
