SITE SYSTEM SITE SYSTEM >SITE SYSTEM The site system is an online system to manage player achievements. Player rankings can be set in the place of player name and achievement, making it easy to see where you stand in comparison to others. SITE SYSTEM *The site system is currently not available in multiplayer. Players in an offline session can access it. However, not all achievements will be visible in offline sessions. In the case of achievements that affect a player's honor level, such as those needed to unlock rank, the player's honor will be deducted when determining the player's rank.
