Staurosporine induces distinct caspase-dependent and caspase-independent apoptosis in normal human myeloid cells. Staurosporine is a potent inhibitor of protein kinase C (PKC). In this study, we investigated the apoptotic action of staurosporine in myeloid cell lines, COS cells, as well as in normal human myeloid

cells. In the myeloid cell lines U937, ML-1, and K562 staurosporine did not induce apoptosis in the absence of serum (serum-deprived), but sensitized the cells to apoptosis in the presence of serum. Oligonucleosomal DNA fragmentation and caspase 3 activation were observed in human myeloid cells, which are sensitive to apoptosis by serum-deprived. Staurosporine-induced apoptosis in human myeloid cells was fully inhibited by Z-VAD-FMK, suggesting that staurosporine activates caspase-dependent apoptosis. To determine whether this activation of caspase is specific to staurosporine and PKC inhibition, effects of several different PKC inhibitors were studied. We found that only staurosporine-induced apoptosis is inhibited by these PKC inhibitors. Inhibition of apoptosis by staurosporine is, therefore, not PKC-specific. In the presence of serum, staurosporine and phorbol 12-myristate 13-acetate induced apoptosis and oligonucleosomal DNA fragmentation in COS cells, and apoptosis in U937 and K562. Staurosporine-induced apoptosis in COS cells and U937 was also inhibited by Z-VAD-FMK, suggesting that caspase activation is involved in apoptosis induced by staurosporine or phorbol 12-myristate 13-acetate in COS cells and in U937 cells. On the contrary, staurosporine-induced apoptosis in K562 was not inhibited by Z-VAD-FMK, showing that this apoptosis is caspase-independent. The cell types therefore possess diverse mechanisms of apoptosis, and the in vitro actions of staurosporine may reflect cellular regulation in vivo. "Just give them their paychecks." It was like a dream... the tower, the instant that Yurei is asleep and asleep... and the ability to see the face of each other... A wonderful fantasy adventure. The game is complex to understand but an ideal match for adventure. Import, in June, in a comedy that took me a few months to understand... I did not understand at the beginning, it was that I put complexity of game to wait... took me time to understand that as they progressed, started to make mistakes. I like it a lot. There are many in-depth quests. So fascinating - a number of paths, labyrinths... you can go wherever, go in any of the paths. I like the initiative of development teams behind the game - for example, the release of textures for the creation of weapons and equipment. The staff has a kind of pressure to meet deadlines, so the app regularly updates... Now, it's not a big fan of some recent visual changes, but if you had the intention, was not... Awesome game that made me cry of happiness at the end. I really recommend it to everyone who wants to explore a peaceful fantasy world. Gorgeous world and a bit of a shame that the game
