They are ideal for drawing with lines, creating shapes, erasing areas, and creating a totally black area. ****Magic Wand:**** This is a built-in tool that uses "Color Range" and "Auto-Enhance" to select an area of the image. ****Burn tools:****

These tools are used to burn in colors over a large area. They can be used to highlight parts of the image, whether they are bright or dark, as well as create a rainbow effect from white to black. ****Split (pixel) tool:**** This tool is used to create masks, which are raster images that can be used to limit the editing of an image. You can click and drag this tool over an area of the image to cut it out of the picture. Or you can use it to edit pixels in an image as a substitute for a hard mask. ****Hand tools:****
