"Space Run is a racing/tower defense hybrid, this is a strategy game you play on the back of a racing truck on a track. What makes the game special is the 4 levels of weapon and shield upgrades; getting good enough to master these upgrades is pretty challenging. Additionally, although it's a game about racing and towers, the emphasis is not on the races or towers; it's on the upgrades for ships, as you gain wealth you can purchase the most powerful weapon in the game, which is a bomb. Spamming the bomb is the best way to level up; by placing a bomb at the end of a track for the enemy to race around and hit. The towers are basically just distractions and help to send the enemy's off track. The game is a great deal of fun and easy to pick up, once you master the strategies and abilities of your ship you'll be crushing the AI." Rating: MILLWAUKEE – July 31, 2016 – From the same team that created cult hit, Flood, comes a brand-new attempt at the addictive, tower-defense genre. The full release of the game is available on Steam for PC, Mac, Linux and Android; with the release version spanning the three Steam platforms as well as the App Store and Google Play. Space Run Space Run is a fast-paced, adrenaline-filled Tower Defense (TD) game where players experience the beauty and terror of space in classic Tower Defense fashion. Space Run combines 2D platform racing with a real-time Tower Defense game to create a fresh take on the gaming genre. Space Run is the second game of its kind after Flood and shares similar core concepts, but also brings its own unique set of features. Tower Defense: Every Space Run game has two key elements: racing and tower defense. In every Space Run game, you'll be racing along a track with an endless horde of enemies that attempt to prevent you from successfully completing your mission. To defend against these enemies, you're given a weapon that allows you to strategically place your ship into different spots to succeed. Racing: In every Space Run, you'll be leading a small fleet of ships into space. Using your ship's ability to make tight turns, you'll be left to fend off the endless track of enemies. You'll need to switch between your ship and defenses in an intelligent manner to maximize your firepower and minimize your casualties. The best

What's new in RPG Maker MV - Dignified Fantasy Music Vol.4 - Royal Palace :-

One of the most interesting things to happen to me since I quit my job last summer is that I've gained a lot of music friends. It's actually quite hard to tell because sometimes I don't know if I'm "talking too much" about music with people. But I'm not usually a person that will just sit down with someone and share my life with them. My music friends don't know that I'm just a 22 year old old Midwestern school teacher that spends too much time in front of screens and social media. I mean, it's only been the last two months that I've really become aware that my music friends I've made over the last few years are slowly starting to (mostly) understand the fact that I work as an English teacher and live here in St. Louis during the week and during the winter and summer months drive from my home to my boyfriend, Aaron's home in the northeast suburbs away from the city where I teach. I have a feeling that most of you don't know either because who in their right mind would drive from St. Louis to the suburbs of Saint Charles, Illinois every day or two and spend every other weekend out of the week and Christmas vacation each year to see my boyfriend? The thing is, that's my life and my boyfriend's life. It's worth a lot of money now to pay to to drive out from the suburbs back to St. Louis. In the winter, it's about two miles maybe, but in the summer, it's a lot further. I mean, everyone has my number and we actually talk sometimes too because we've been actually kind of friends for a while now. But the other thing is that I don't like being a burden to people. Well, maybe that's not the whole truth. I've been a burden to people, especially after I lost my job and since have been spending so much time doing homework and figuring out education in this new job and new lifestyle. It was one of the hardest things to understand that people are basically normal people that have just been introduced to a crazy life change lately. I've been helping my friend Holly change her diet and exercising regularly to help her get back in shape after throwing around 37 pounds in almost two months. Chris had to help me figure
