#### **What's New In Xilisoft DVD Toolkit Platinum?**

Xilisoft DVD Toonkey is a special variation of the well-known Xilisoft DVD Ripper Platinum software. It comes with several new pre-rendered video templates, a movie browser, an audiobook

---

library and a DVD-to-DVD burner. Xilisoft Toonkey contains a handy built-in video editor that allows you to trim, split, and merge clips, rotate, flip and adjust the color of the source video. It can set start/end time stamps and output the processed video in AVI, MPEG, WMV, MOV, DIVX, and XVID formats. This special variation comes with the famous Xilisoft Video Converter

---

Platinum 7 with over 10 different output profiles.

Xilisoft Toonkey Features:

Trim, crop and split and join video files Rotate, flip and adjust the color of the source video Set start and end time stamps of the processed video Support any video formats including WMV, AVI, MPEG, H.264/MPEG-4, FLV, DIVX, XVID, MOV, ASF, RM, RMVB, 3GP, 3G2, and many others Preview the

input and output files  
(choose and adjust  
brightness, contrast,  
saturation, sharpness, and  
contrast of the video and  
audio) Use the built-in  
audio recorder to capture  
sound and save it as MP3  
files Select the processed  
video to burn to disc or  
copy to other disc Pre-  
rendered video templates:  
School - kids movies and  
cartoons Sport - soccer,  
hockey, basketball,

baseball and many more  
Science - astronauts and  
rockets, chemistry  
experiments, and more  
Family - animated movies,  
animated movies for  
family, holiday and  
anniversary, and more It's  
not a very powerful  
program, but I like its  
interface. I only wish it  
didn't turn the volume of  
my computer all the way  
down (which makes the  
audio in the program quiet

---

too) when it's processing an audio file. (I have a decent pair of ear plugs I use, but they don't drown out all the hissing and whistling of my pc fans.) It would be nice if you could set the volume level yourself. Other than that, it does all the things a dvd ripping program does, with few of the shortcomings. I tried copying a DVD to a hard drive, and instead of writing a copy to the hard
