Epidemiology is sometimes performed as a means of justifying changes to the health care system. We use the term 'epidemiology and health services research' to refer to the set of ethical problems specific to this type of research. We use a literature review to identify four ethical dimensions common to this type of research, namely: the balance between benefit and harm for research participants, the payment for participation, social distance between researchers and participants, and the rules governing anonymity. The ethical issues raised by these dimensions are discussed and a framework to help managers to examine and manage these issues is proposed.Q: Can't I access the stop button on this photo? I am actually trying to reproduce my previous question, which didn't get a really satisfying answer. Now, I finally got the access to "USB2.0 hub to PC". but it has strange interface. When I connect my smartphone, it shows two things: and

Monday, September 29, 2010 Pumpkin Pie I was fortunate enough to attend a big family birthday party at a local park and it was really nice to spend some time with all the kids. The best part of the evening was that it was decided that we would all have a pumpkin pie feast that night. It was great to have all the kids taste the pie and get to know each other better. Although our menu was quite small, we all managed to find enough food to last us until lunch the next day. The birthday boy especially loved his pumpkin pie and his sister and I really liked it too. The crust was crispy and I love pumpkin pie with a crispy crust so it was a win/win. Since then, I had the idea to make our dinner on our anniversary instead of ordering out so that my parents could make this pie. They came through for me again and made me some of their homemade pumpkin pie this week. I have no idea if they will make it again, but I thought I would
