- \* **Layers:** You add layers to an image, either in the background or by adding them to the foreground layer. In the foreground, the layers sit on top of one another; in the background, they remain separate. Using layers, you can add images, pictures, text, and even programs and their programs on top of one another to build complex images.
- \* **Linked files:** Making linked files is a great way to save a series of images that can be edited or edited together in a project. They can be edited, inserted or removed, and made invisible to the camera to keep the photo intact when it's printed or sent to email.
- \* **Smart Objects:** This feature is cleverly named. It's really a smarter version of a layer, but instead of a transparent layer, it is a smart layer that includes various properties, including a drop shadow, a gradient, and a pattern. By default, it looks like a layer, but it has settings that enable you to modify its properties. Smart layers are perfect for adding a brush effect to an image.

The lifelong regimen of acne lesions in patients with HIV infections: A natural history study. Although patients with HIV infections have much greater opportunities for infectious and non-infectious skin lesions than the general population, the natural history of acne lesions in this population is poorly understood. We investigated how changes in the treatments prescribed for adult patients with HIV infections affected their acne lesions. At eight comprehensive HIV care centers in the United States, a total of 2,723 patients with HIV infections aged  $\geq 18$  years received clinical assessments of acne lesions every 6 months. These models controlled for changes in health status, demographics, insurance status, and other factors over time. The cumulative proportion of patients taking  $\geq 5$  medications for acne changed significantly over time ( $P=0.0044$ ). By the second year, 9.4% of the patients were taking  $\geq 5$  acne medications, and by their third year, the cumulative proportion rose to 29.0% (PSir Richard Charles Fry Sir Richard Charles Fry or Frys (19 July 1837 – 5 May 1889) was a British Conservative politician.
