AutoCAD offers architectural drafting capabilities such as wall, floor, and ceiling construction; room, corridor, and balcony construction; and many other features. It also provides BIM (building information modeling) drafting, which is a model-based approach to architectural, structural, and MEP (mechanical, electrical, and plumbing) systems design. Additionally, AutoCAD offers a large selection of drawing and annotation tools for working with 2D and 3D views of your work. For a business, AutoCAD is suitable for drafting, design, and fabrication. For engineers, architects, and other drafting professionals, AutoCAD is one of the most commonly used CAD packages. Our seasonal staff and team of artists and designers bring new life to our boathouse, creating more than 70 square metres of new art for visitors to enjoy. The boathouse is one of the most-visited sites at the park, with thousands of people visiting every year to see our sculptures and the beautiful scenery surrounding our award-winning boathouse. The centrepiece of our boathouse is the stunning new sculpture of Boatman, which was unveiled in June 2014. Boatman celebrates the history of Sydney Harbour, using his boat to bring people together and drawing on inspiration from other aspects of city life. We see the sculpture, which features a life-size replica of a horse-drawn carriage, as a modern twist on the eternal folklore of Sydney Harbour. The boathouse is the first permanent residence at The Domain. Since the early years of the park, it has been a popular resting place for visitors. Built in 1887, it is the oldest surviving building in the Domain. In 2003, the park's original boathouse was extensively refurbished and restored. In 2013, a new public boathouse was opened at the Domain, built to a standard that exceeds National Park standards, with double-glazed windows and double-glazed doors to keep out the heat and cold of summer and winter. We take great pride in protecting our artwork, making sure that it is safe and secure, and remains free of graffiti. We also have a strict approach to vandalism. We invest in education to ensure that our visitors know what is acceptable behaviour
