How to crack crack idesoft gestion xl parts 3b93dbd crackThe present invention relates to magnetic sheet members such as foil, film and sheet to which a desired pattern can be formed and a method for producing the same. As the magnetic sheet member, there have been known a magnetic sheet having a magnetic layer consisting of a ferromagnetic material such as iron or an alloy of iron and

nickel, and a magnetic sheet having a magnetic layer composed of metal such as iron and a magnetic powder on a support. In particular, the latter magnetic sheet attracts attention since the metal magnetic powder can be dispersed into a precise location. Conventionally, for example, a magnetic recording medium of a tape or the like utilizing magnetic powder includes a magnetic layer consisting of magnetic powder dispersed in a binder. In recent years, however, the magnetic recording medium utilizing a magnetic layer of magnetic powder dispersed in a binder is not suitable for high-density recording, and therefore, there is now used a magnetic recording medium of a type utilizing a ferromagnetic thin film which is constructed by coating a non-magnetic substrate such as polyethylene 6d1f23a050
