The game was released on November 3, 2019 for the Nintendo Switch. The game features an extended filter system that provides greater control over the edges of the overall picture and shapes, allowing users to produce retro (c. 1994), retro-future (c. 2025), or randomly generated retro-futuristic photographs as they wish. [page break] Graphical controls in the camera mode allow fine-tuning of the overall picture, including effects such as the amount of saturation, the quality of image processing, various camera modes (including the camera mode formerly featured in Super Smash Bros. Melee), the rendering setting, and the number of photographs the user can take at once. [page break] The game includes the ability to take photographs of several "elements" of the overall picture at once (leaves, vines, flowers, and fruits), allowing users to take photos of non-animated elements in the environment. Starting Dec. 29, you can get a free download of the character, which must be unlocked first through the mode's Fighters Pass. As the sticker is given to you as soon as you finish the match, this offers the player a more convenient method of obtaining it rather than first purchasing the DLC and then looking for the sticker. To unlock it, you must complete the mode's Fighters Pass. With the exception of Aggron, the game also features a Shadow Metagame in which fighters other than those in the base game may be playable. Fighters in the Shadow Metagame are not considered part of the base game's data, and may not be used in story mode, but may still be used in online matches. Fighters such as Bowser Jr. and Piranha Plant may be obtained through either Fighters Passes, the DLC Week, or the offline "Shadow Pass". [8] Fighters Passes are purchased separately at launch, while the DLC Week and Shadow Passes are a

part of the Fighters Pass. Available characters include the aforementioned Piranha Plant, Bowser Jr., Piranha Plant, and Koopa Troopa, as well as the bases of the game's six new fighters: the Ice Climbers, Falco, Shantae, Meta Knight, Pac-Man, and Charizard. The Fighters Pass also comes with an online speedrun of Luigi's Mansion: Dark Moon, while the DLC Week and Shadow Passes include an online speedrun of Luigi's Mansion: Dark Moon, a download code for Super Mario Maker 2, and an exclusive costume for Samus.
