Varianz in der konstruktionalen Schematizitt. Tbingen: Stauffenburg. 315-354. [PDF] As with the previous two volumes, this work collects extensive reviews of the most recent studies in the field. These include one by Wolfgang Ruge, who has contributed to various dictionaries and grammatical works, and Jutta Westphal, a linguist and biographer who is completing her "Lexikon zur deutschen Formensprache". There are biographical notes on Wolfgang Bauer, Heinrich Nissen, and Peter Engel, all of whom have contributed to dictionaries and grammatical works. Included are a chronological timeline of 20th-century German grammar, and an extensive bibliography of articles and monographs, many of which have been reviewed in the volume. Each section of the volume contains a general introduction in English. The biographical notes, bibliography, and a chronological timeline are in German. This collection includes works on a wide range of topics. 5ec8ef588b
