### **What's New In?**

Users nowadays live in a world where a laptop is not only a device to work with but also a tool to share files, access information and communication platforms, or simply stay connected with the rest of the world. In addition, to that, any type of work can now be carried out directly from a computer's user interface, for example, create a new spreadsheet or sign a signature in the Windows OS. With that in mind, users nowadays are often confronted with the problem of finding their way around in the filesystem to access files and folders they need or want to copy or transfer. So it's time to find a good tool that can help users when they need it the most. For that reason, we are pleased to present to you the latest version of "My Explorer" - My Explorer for Windows 10. The application is simple, intuitive and designed to help the user carry out basic operations from the Start screen, such as opening, moving, copying or deleting folders, or even transferring files. Key features - On the Start screen, choose "My Explorer" and open the application - Launch My Explorer from the Start screen, by selecting any icon, or add a specific folder as a custom location - Choose between Dark and Light themes - Add your favorite folders as "Favorites" - Move, Copy, or Delete files or folders using My Explorer - Import/Export files and folders with My Explorer - Export your files and folders as an.xlsx,.txt,.csv, or.zip file - Access frequently used files with the recently opened list - Press Ctrl+X to cut files and folders from the system to copy, copy to, paste, move to, move to, copy, or delete - Pin folders to the Start screen for quick access - Export the lists of recently opened and favorite folders to.csv or.xlsx files - View properties for selected folders - Open the folder in the default explorer, or access it with its native thumbnail - Use the two views available for folder thumbnails: My Explorer or Desktop icon - Group the folders using the "Recent" list or "Favorites" - Duplicate file/folder names are handled automatically when copying, pasting, or moving files/folders - Search files using the recently

opened list - Create, edit, move or delete shortcuts, create links to files - Share files using email - Add, edit, or remove bookmarks - Change the current language of the program - Use a list of recent files or a file explorer - Move the current folder to the left or right in the list - Refresh the lists - Modify the appearance of the program - Display the file types associated with each file or folder - Undo a file/folder operation - Change the size and color of the file/folder thumbnails - Block the execution

## System Requirements For My Explorer For Windows 10 8.1:

CPU: Intel Core 2 Duo E7500 2.13 GHz RAM: 4 GB Hard Disk: 1 GB free space Instalation Screenshot:
