How can I set these properties when using the Graph API v2.1? A: There is no more /me/picture in Instagram API, but there are ways to find its URL. One of the ways is mentioned in this answer A more simple way is to use the following code: \$image = \$user->images->standard_profile_image; \$user_info = \$user->get("/"); \$this->fb_user_image = \$image->standard_url; Q: Assign input radio value to a class in JS I have several input type="radio" selected and also have some CSS code that looks like this .hidden { display: none;
